MCM #6  
(Pollution Prevention and Good House Keeping for Municipal Operations)

- Employee Training
- The City of Jamestown Engineering Department, ND Health Department and North Dakota Local Technical Assistance Program (LTAP) are key ways in which the importance of good house keeping with-in the municipal operations are obtained.

MCM #6  
(Pollution Prevention and Good House Keeping for Municipal Operations)

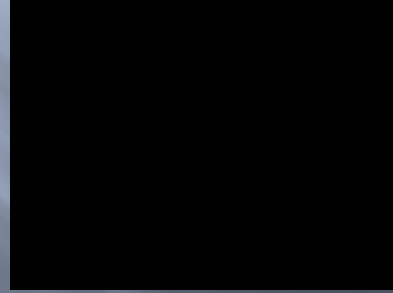

- Storm Sewer Inlet Maintenance
- As time allows storm water inlets are inspected and maintenance is preformed to help reduce the amounts of material that flow to the river systems.

MCM #6  
(Pollution Prevention and Good House Keeping  
for Municipal Operations)

- Street Sweeping Program.  
(2) Elgin Sweepers help reduce Sediment  
discharge in to the river systems.
